The Story Behind the BIG DREAM GATHERING

In the midst of going after one of their own big dreams, **Mitch Matthews** and his wife Melissa hit a series of obstacles all at once. As a result, they were on the brink of giving up.

Then Mitch was hit with the idea that everyone has big dreams and we're not supposed to go after them alone. So they decided to invite a group of friends to their house on a Tuesday night to dream big together.

They called it the **"BIG Dream Gathering™."**

Mitch and Melissa invited their friends to write down their dreams and goals and post them on the walls of their home. Then everyone could read each others dreams and see if they could help with encouragement, connections or time.

It was supposed to go for a few hours on a Tuesday night... but it wound up lasting a full week!

All sorts of dreams were launched at that first **BIG Dream Gathering**. Everything from a young woman helping children in Africa to a couple of dreamers scoring a contract with NIKE®!

These BIG dream gatherings have continued and Mitch and his Dream Team have seen this revolution take off with thousands of dreamers participating and tens-of-thousands of dreams reawakened and incredible connections made.

Participants will be inspired to think about their own BIG dreams as well as BIG dreams for their organization and community. Plus, they'll be given some real-world tools that will enable them to take action... immediately!
