! BIG Dream Revolution!TM

● THE INSPIRING STORY OF THE BIG DREAM GATHERING!

In 2006, Mitch and his wife started something called the BIG Dream GatheringTM. It was an opportunity for friends to come and write down their BIG dreams and post them on the walls of their home. Then everyone could read all the dreams and see if they could help with encouragement, connections or time.

It was supposed to go for a few hours on a Tuesday night... but it wound up lasting a week! And as a result... all sorts of dreams were launched. Everything from helping children in Africa to a couple of dreamers scoring a contract with NIKETM!

These BIG Dream Gatherings have continued and Mitch and his Dream Team have seen this revolution take off with countless dreams reawakened and incredible connections made.

In this high-energy program, Mitch tells the inspiring story behind the BIG Dream Gathering and talks about the four questions that started this revolution.

Participants will be inspired to think about their own BIG dreams as well as the BIG dreams of their campus and student organizations. Then they will be given some real-world tools that will enable them to take action on those dreams... immediately!

! What's Next for Me?TM

● WHAT IF I DON'T KNOW WHAT MY DREAM JOB IS?

Everyone tells us to go after our dream job. Book titles tell us to pursue our passions and the money will follow. We're all told to set big goals and go after them.

BUT... what if we're struggling to figure out what that dream really is? What if we have no clue what the dream job might even look like... let alone whether it exists at all? What if we're not quite sure what we're passionate about? And what if our big goals feel as clear as mud?

In this inspiring and fun program, Mitch delivers a simple but powerful strategy for getting clear on some of those big goals and dreams. More importantly, he gives the audience some actionable steps for pursuing those dreams while also successfully preparing for and navigating the current job market.
