

Entrepreneur and speaker Mitch Matthews has had some nasty jobs. He's sorted clothes in an old warehouse, painted trash cans and had a particularly smelly experience working on a chicken farm. (Yeah... he only lasted one day!)

As a result of some of those bad experiences... he became fascinated with the concept of a "dream job." Was it real? Was it possible? Most importantly, how do people get one?

That's why he's dedicated 10 years to study this very subject. He's conducted countless interviews with people who attained or created their dream jobs. Plus, he's done 1,000's of one-on-one coaching sessions to help people to get C.L.E.A.R. and achieve their dream job too!

Now, in PROJECT: DREAM JOB, Mitch is sharing those stories and strategies. He helps audience members to get C.L.E.A.R. and make their dream jobs a reality!

- C.** - Clarity - Getting clear on what you want and don't want.
- L.** - Learning - Identifying what real-world skills and experiences you need.
- E.** - Experimenting and Excellence - Trying new things and bringing your awesome.
- A.** - Accountability - Setting up support systems through powerful networking
- R.** - Results - Delivering results and being able to prove it

Dream jobs are 100% real and 100% possible. You just need to know the step-by-step process for attaining them... in any economy! Let's give students on your campus that process so they can achieve dream jobs too!
